Charter (Leadership, Authenticity, Speed, Efficiency, Responsibility).

Based on the outskirts of vibrant Cardiff, our team is at the cutting edge of laser & robot technology. Our expertise enables the world's leading manufacturers (in industries including medical, data, electric vehicle) to automate their production to enable their world changing devices to impact ever more people.

With rolling hills and thriving cities right on our doorstep, we encourage a work life balance where our team are proud to work and live in beautiful South Wales, where adventure, culture and community are in affordable abundance.

This is a rare and excellent opportunity to join our highly innovative organisation undertaking world changing partnerships with billion-dollar companies and technologically rich Customers. We create a culture where technical growth, new ideas and the advancement of possibilities are encouraged.

We offer a 'people' centric environment, focused on unlocking the growth of our close team in a fun, fair, and flexible way. We empower our team with the autonomy to have a significant impact and reach for the stars, allowing all to challenge the status quo as we strive for technical and brand excellence.
